

Rosie 09-106

Thanks to GRRoW

You ask: Why would an 88 year old person decide to adopt a dog at this age of his life?

Answer: Because he met a 13 year old dog, who had lived since puppy hood with the same family. Then the master contracted cancer and entered a nursing home. Rosie needed a new home and GRRoW was there to make it happen.

And because since childhood I had lived in a family with a loving dog. I had just parted with a 4 year old German Shepherd/Husky mix. I had always loved both breeds and now had both in one. Lady was a beautiful, loving 70 pounds of Brahma Bull. I just couldn't safely handle her. An adopting and loving family now does.

Through a friend I learned of GRRoW, the organization that came to this guy's rescue. "Can you find me an 8-10 year old Golden Retriever?" Years ago we had a Golden and he was a great dog. GRRoW did even better; they found Rosie, 13 years of beauty, love and companionship. There: 88 and 13+ A MATCH!

Rosie and I just celebrated her 14th birthday. We even had a cake with her picture on it and everything. Joining our celebration were some 20 staff workers at the assisted living home where we live in an apartment. Everyday Rosie and I average some 6-8 walks: our motto: Not far...but O Boy, often!"

Now d'yah get the picture? I have just given you the formula for contentment!
Thank you GRRoW.... Thank the Good Lord.
