

Blaze 08-059

After losing our 13+yr old black lab this spring, we just knew we wanted another "fur-friend" in our lives. My husband and I are both retired and we knew we could give a golden a lot of attention. GRRoW found the perfect new friend for us. Blaze needed to be the center of attention and thanks to her foster parents, Terri and Chuck we found each other. Blaze came to us with special health needs and we are so grateful to Terri and Chuck for all the information they were able to give us regarding Blaze's needs. She is the love of our life and has adapted very well. So, thank you GRRoW for being such a caring and dedicated organization and Terri and Chuck for being the BEST foster parents ever.

I am enclosing a couple pictures of Blaze. She is shown with us and then with our grandson at their first meeting. Obviously, they became "fast friends" immediately.

Many thanks!
