

Daisee 08-103

Daisee came to us on Dec 27th, 2008 and every day we cannot imagine our lives without her. We call her our little "rollie pollie". We have a Golden named Jyl(from a friends liter) who is 2 and is very outgoing. We were not sure how she would do with a new sibling. When Lisa brought Daisee, who just turned 3yrs up to our summer home she immediately bonded with Jyl and our family. Her personality and noises she makes when you are giving her 100% of your attention keeps us laughing all day. She just can't get close enough to you and would spend every moment of every day getting her belly scratched. She loves to play ball and roll in the snow and play keep away with Jyl.

We cannot thank all the wonderful volunteers that without this program we would not have Daisee in our lives.

Thank you so much.

The J. Family
