

Dexter 06-045

I have put off submitting Dexter's success story as I wanted to be pretty sure he became a true success. It's now 2009 and I think it is safe to say he has achieved that goal. Dexter came into GRRoW as a very young and very unruly puppy. He was fostered by some very dog savvy people who helped him get his act together. His foster folks encouraged me to take a chance on this rowdy boy so on July 1, 2006 he became a member of my family. The

boy was going to need a job and still needed work on his socialization. We started out with puppy classes and progressed through basic and advanced manners and on to Rally classes. Dexter's classes paid off as he earned his CGC and Rally Novice titles. He now attends classes in agility and hopes to compete someday.

Dexter has also found a job he loves. He is a proud member of a Search and Rescue Team in Wisconsin. He has certifications in Mantrailing and in Cadaver detection. Since we also foster for GRRoW he has taken on the job of foster brother to other GRRoW dogs.

He has become a remarkable dog who has brought me endless hours of joy and amazement. I will be forever grateful to GRRoW for taking a chance on this boy. He has shown what rescue is all about.
