

Hello from Dooley's Mom and Dad!!

What a handsome fellow our Dooley is!!

We have just fallen in love with him. We can't say that he doesn't have his moments... like trying to get the squirrels and chipmunks through the glass French doors.

But all in all he has calmed down and has become a real gentleman. I

work at home and he lays next to me and sleeps, he sleeps so that he can gear up for when my husband arrives home.

That's when the Indy 500 starts. He loves to play with our neighbor's Golden, Hunter. They are about the same age and you would think they were long lost brothers.

He is walking better on his lead and can handle some commands. We are continually working with him; he still has much to learn.

But, we love him and he has brought a lot of joy to us. I told my husband that I always wanted a 'little pony' and now I have one... and his name is Dooley!
