

Jack 08-018 and Arnie 08-022

Hello from the adoption family of Jack and Arnie,

Life has not been the same since we have been blessed with Jack and Arnie. These two brothers have really added a lot of joy and fulfillment to our family. We have two girls who were instrumental in the adoption of these two boys. Since they have joined our family in May everyone in the neighborhood has stopped by to get to know them. They love to drive in the car and besides a little counter surfing they have been perfect. Their weight was an issue when we first got them, but thanks to my wife walking them every morning and the girls constantly playing with them in the yard they are getting fit. The boys sleep in our room or on

the bed in our girls room. They are truly spoiled but that's OK. We took them to Kohler Andrea state park today and they loved running in the water. I can't say enough about our two boys or the GROWW organization (Ann and Gary) who helped us get the right dogs for our family. Thank you
