

Jake 07-038 and Ruby 10-045

Hello from Jake & Ruby's family. We adopted Jake in 2007 and Ruby in 2010. Jake is 14.5 and Ruby is 5. They love to go for rides in the car. In fact, when Jake knows he gets to go for a ride, he will get so excited that he tries to run to the

garage. Jake needs some help getting in and out of the vehicle. But once he's in, he settles down and takes up the entire 3rd row bench seat. Ruby's favorite spot is in the front passenger seat. That way she won't miss anything.

They like the dog park and especially the attention they get from the dog loving people. Ruby enjoys Jake's companionship and sometimes they will lie close to each other on the same dog bed. Ruby has a job every night. She lies

next to our son in his bed for story time. As soon as she sees that he has fallen asleep, she comes to our room and lies on her bed close to Jake.

Thank you Mary and Lynn for helping find the perfect additions to our family.
