

Koda 09-021

We have been busy since we last saw you. Koda has become quite the addition to the family; great disposition and a gentle young man. He certainly has taken to running. What a natural. We started him out with long walks, and then 1 and 2 mile jogs. The attached picture of Koda, Barb and I, was taken just after his first 4 mile run/jog. He did great. Of course when we got back he wanted to continue to run and play stick "keep away". Not sure where he picked up the habit, but he certainly

has a thing for running into the woods, grabbing the largest stick he can find and running with it throughout the yard.

He has a favorite lamb's wool type stuffed toy he sleeps with. He sleeps in our bedroom next to the bed. Koda and the cats (picture attached) get along extremely well. The tan cat "Tobby" took time to warm up to Koda, although they are now best of buds.

The black cat is Sasha. As you can see, Koda is a part of every event.

As to water/swimming, I am sorry to say Koda has not had too many opportunities. I have yet to put the dock and boat in the water; though we plan to do that this weekend. So Koda will likely end up getting wet soon and frequently.
