

Rusty 08-082

I know it's been awhile...thought I'd give an update on Rusty...He is doing great...loves the warm weather and laying in the grass enjoying the weather. He enjoys when we have company ...grandkids...friends...they just love him!!!! He has started to voice himself when people come by the house..and it is hilarious to hear his low bark...but listens when told to relax...every morning he greets me with a excited tail wagging and a "where's breakfast" He loves his veggies in his bowl and is very gentle with treats...he goes for short walks..and is content to just rest the evening away in the middle of the front room rug...we wouldn't think of having him move for us...we just step over him!!!!

He went to the groomer last month and came out looking fabulous...what a handsome boy...!!!!
And he knew it!!!! Smelled great too!!!!

We love him dearly and thank GRROW for all they've done for him and us...will keep you posted.
