

Sully 08-076

We want to thank everyone at Grrrow who participated in bringing Sully into our hearts and our home! We loved him from the first day that we met him. Sully and our two girls, Maddie and Millie became instant pals. He loves our long daily walks and visited the lake in Minoqua once last fall. Even though the water was chilly he had a ball swimming. We can't wait to return this summer.

He is both funny and a lover--a perfect addition to our family.

I enclose pictures that were taken 3 days after Sully came to live with us. Although we don't encourage the dogs to get on the sofa, I walked into the living room to find all three on the sofa as if to say, "Solidarity Rules!"

Many thanks!

The V. Family
