

## Wrangler 08-063

We wanted to give you an update on Wrangler, who we adopted on September 5, 2008. Three years after losing our last Golden, we were finally ready for another family member, and it was the best decision we ever made.

We fell totally in love with Wrangler within days of having him, and he might just be the cutest dog we've ever had! (Of course we've said that before!) He has tons of crazy wild puppy energy at 1.5 yrs old, but is also just so sweet and cuddly when he's not running around or wanting to play fetch. He's always curled in one of our laps at night to watch TV with us. He loves to give kisses and loves to be called a good dog! He did great at obedience classes and learned really quickly. He just wants to make us happy. He's a GREAT companion. He's enjoying living in the country right next to miles of hiking trails, where we take long walks. And he loves, loves, loves the snow!

He is the most wonderful addition to our lives and we couldn't be happier!

Thanks GRROW!
